	<p><b>STEP ONE</b>  </p> <p>Build the base of your lamp by using a thin layer of wood glue to glue together 25, 1" blocks into a square.</p>		<p><b>STEP TWO</b>  </p> <p>Use the bulb base to mark the 2 screw holes and predrill to avoid splitting the wood.</p>		<p><b>STEP THREE</b>  </p> <p>Line up the bulb base with the predrilled holes and drive the 2 screws into the wood base.</p>
	<p><b>STEP FOUR</b> </p> <p>Insert the bulb into the base to use as a reference while building the rest of your lamp.</p>		<p><b>STEP FIVE</b>  </p> <p>Glue one layer of blocks on top of the perimeter of the base.</p>		<p><b>STEP SIX</b>  </p> <p>Glue a second layer of the perimeter blocks on top of the first layer. This layer could start to have openings and blocks pushing outward.</p>
	<p><b>STEP SEVEN</b>  </p> <p>Continue to build up and out with the blocks making spaces for light to shine through.</p>	<p><b>NOTES:</b></p> <hr/> <hr/> <hr/> <hr/>
